DETAILED ACTION

Election/Restrictions

1. Applicant's election of Group I in the reply filed on 12/15/04 is acknowledged. Because applicant did not distinctly and specifically point out the supposed errors in the restriction requirement, the election has been treated as an election without traverse (MPEP § 818.03(a)).

Claim Rejections - 35 USC § 103

2. The following is a quotation of 35 U.S.C. 103(a) which forms the basis for all obviousness rejections set forth in this Office action:

(a) A patent may not be obtained though the invention is not identically disclosed or described as set forth in section 102 of this title, if the differences between the subject matter sought to be patented and the prior art are such that the subject matter as a whole would have been obvious at the time the invention was made to a person having ordinary skill in the art to which said subject matter pertains. Patentability shall not be negated by the manner in which the invention was made.

3. Claims 1 and 7 are rejected under 35 U.S.C. 103(a) as being unpatentable over Ristell et al ('925). The reference discloses the invention substantially as claimed; see Figure 2 and page 1, right column, lines 38-55. However it does not disclose the use of a fabric as the pleated article. In lines 37-48 of the right column on page 1 of the reference it is disclosed that any material can be used as the pleated material. Therefore, it would have been obvious to one of ordinary skill in the art to use any well known material, such as fabric, as the pleated material in the reference depending on the desired structural and decorative properties of the article.

Allowable Subject Matter

4. Claims 2-6 and 8 are objected to as being dependent upon a rejected base claim, but would be allowable if rewritten in independent form including all of the limitations of the base claim and any intervening claims.
